PROFESSIONAL SUMMARY

UI/UX Designer and Web Developer with 5+ years of experience working across the full product lifecycle — from user research and wireframing in Figma to building and shipping production websites in Webflow, WordPress, Framer, and React. Delivered 150+ projects for clients across 10+ countries with consistent 5-star ratings. Fiverr Level 2 Seller and Upwork Top Rated with 100% Job Success Score. Fluent in both design thinking and code, bridging the gap between designers and developers to ship products that look right, work fast, and convert.

CORE SKILLS

Design: Figma, Framer, Spline 3D, Canva, Wireframing, Prototyping, Design Systems, User Research, Usability Testing, User Flows, Information Architecture, Design Sprint, Accessibility (WCAG)

No-Code Platforms: Webflow (CMS, Interactions, Logic), WordPress, Elementor, WooCommerce, Crocoblock, JetEngine, Shopify, Kajabi, Framer

Other: SEO, Core Web Vitals, Performance Optimization, AI-Assisted Design & Development, Agile

WORK EXPERIENCE

Product Designer & AI-Enhanced Web Developer

Fiverr — Level 2 Seller | May 2020 – Present | Remote

- Delivered 150+ end-to-end design and development projects for clients across 10+ countries.
- Designed high-fidelity Figma prototypes and built them into production Webflow, WordPress, and Framer sites.
- Maintained 5-star rating with a 40% repeat client rate across all projects.
- Implemented CMS solutions, WooCommerce stores, and custom automation and integration workflows.
- Applied GSAP animations and Spline 3D to deliver immersive, conversion-focused web experiences.

Product Designer & AI-Enhanced Web Developer

Upwork — Top Rated Plus | Mar 2021 – Present | Remote

- Achieved 100% Job Success Score across global design and web development projects.
- Led full-cycle design: user research, wireframing, user flows, prototyping, and pixel-perfect implementation.
- Built responsive, accessible websites with third-party integrations and measurable performance outcomes.
- Delivered complex CMS architectures and e-commerce setups on Webflow, WordPress, and Shopify.

UI/UX Designer

Vesko | Part-Time | Mar 2024 – Feb 2025 | Joensuu, Finland

- Designed mobile app, desktop webshop, and tablet UI from research through high-fidelity Figma prototypes.
- Developed the Vesko website as a marketing landing page and multi-page product site.
- Worked within a small design team across the full product design and development lifecycle.
- Ensured consistent, accessible user experience across all platforms and screen sizes.

Low-Code Web Designer & Developer

Artic Maze — Full-Time | Feb 2022 – Jan 2024 | Chittagong, Bangladesh

- Led website design and development projects end-to-end across Webflow and WordPress.

- Built custom WordPress sites with Elementor, WooCommerce, Crocoblock, and JetEngine.
- Designed and implemented Webflow CMS, dynamic content, scroll animations, and Spline 3D experiences.
- Optimized all projects for Core Web Vitals, performance, and full cross-device responsiveness.
- Resolved technical design and development issues to keep projects on schedule and on spec.

No-code Web Designer & Developer

Sixforces — Part-Time | Mar 2023 – Nov 2023 | Remote

- Converted 40+ Figma designs and legacy websites into modern, fully responsive Webflow sites.
- Implemented Webflow CMS, interactions, and responsive layouts with strong attention to design fidelity.
- Collaborated with clients on feature scoping, third-party integrations, and staging-to-live deployment.
- Optimized every project for loading speed, responsiveness, and UX quality within weekly sprint cycles.
